Hi! I'm Jeremy!

I'm a Frontend Developer located in Tampere, Finland. I focus on building accessible, maintainable web applications. I'm experienced in design systems and component libraries, translating designs into scalable UI, and integrating modern frontends with existing backends and databases.

Experience

Netum | Frontend Developer

Nov 2020 - Present

Developed digital services within the public sector, engaging in diverse projects as a software developer and UI designer.

Built design systems that enhanced usability and visual consistency across multiple platforms.

Created accessible code to ensure optimal user experiences for all individuals, including those with disabilities.

Collaborated with cross-functional teams to deliver innovative solutions that improved service delivery and client satisfaction.

Jeremy Gehlen tmi | Freelance Software Developer

May 2022 - Present

Developed and optimized Shopify applications for a comic book store in Germany, focusing on improving backend processes and admin functionalities to support seamless operation

Crafted dynamic websites for NFT clients at a US-based company, specializing in blockchain wallet integrations that elevated user interactions and streamlined transactions

Duunitori | Web Developer Trainee

Oct 2019 - May 2020

Revitalized job search processes by developing a new job search application using React and TypeScript, and engaged in various coding tasks, including website creation with Django for projects.

Education

Helsinki Business College

May 2020 | Helsinki

Full Stack Developer Program: Modules From Vocational Qualification In Information And Communications Technology
